

## LAF Annual Report 2006-2007

Dementia: one new case every 7 seconds! Let's put it on our agenda...

Five years of sustained effort to bring the Dementia Services and Information Centre to fruition will culminate on World Alzheimer's Day, 2007. The ground breaking ceremony is planned for September 21, at a site in Colombo. A note of appreciation to all our supporters who have helped in numerous ways. May I look forward to your continuing commitment to help us achieve our Mission. - Dr. Tami Tamitegama
